DETAILED ACTION

1. The response filed 08/18/2006 is made of record.

Claim Rejections - 35 USC § 112

2. Claims 1-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claim 1 teaches "preparing plural dot patterns with a direction of wave **and/or** wavelength changed according to an arrangement of dots".

The specification teaches in paragraph [0077] preparing plural dot patterns with a direction of wave and wavelength changed according to an arrangement of dots but does not teach preparing plural dot pattern with a direction of wave or preparing plural dot pattern with wavelength changed .the specification needs to describe three embodiments in order to comply with the enablement requirement. See also MPEP § 2164.01(a) and § 2164.04.
